Dear Mrs.

I am sorry that you were unable to benefit from the previous Echo schedule. Following is the Echo schedule for Beaufort, South Carolina for the dates indicated:

4 July 1963

09.39 PM North of City, 78° Above Horizon Moving SE

5 July 1963

08.35 PM North of City, 51° Above Horizon Moving SE

5 July 1963

09.38 PM South of City, 740 Above Horizon Moving SE

7 July 1963

08.35 PM North of City, 68° Above Horizon Moving SE

Your sighting of 15 May is under study.

Sincerely,

ROBERT J. FRIEND Lt Col, USAF BEAUFORT, SOUTH CAROLINA

Jun , 30, 1073.

L/C Robert J. Friend Tright-Tatterson Air Force Base, Chic.

My der Colonel Friend,

The timetable which you sent us or sighting Echo was greatly appreciated. Unfortunately, the evenings covered were, here in the Feaulfort area, ones of near zero visibility. Our really thick weather seems to be passing now, however, and last evening just before nine o'clock we found our satellite again.

Although we have seen no more "things" in the sky, we have heard from other people in our area that they, too, have seen "things", from other locations and on different dutes.

if any as yet, your department has come to in recard to UFC. Te shall look forward to hearing from you further.

L/C R. J. Friend FTD Box #9252 W-PAFB, Ohio

Dear Mrs.

Following is the Echo schedule for Beaufort, South Carolina for the dates indicated:

21 June 1963

01.54 AM-South of City-87° above horizon-moving SE. 04.05 AM-South of City-08° above horizon-moving SE. 10.48 PM-North of City-35° above horizon-moving SE.

22 June 1963

00.51 AM-North of City-64° above horizon-moving SE. 02.59 AM-South of City-30° above horizon-moving SE. 09.46 PM-North of City-32° above horizon-moving SE. 11.49 PM-North of City-47° above horizon-moving SE.

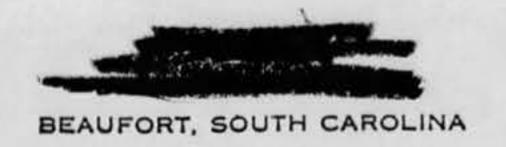

23 June 1963

01.55 AM-South of City-61° above horizon-moving SE. 10.47 PM-North of City-38° above horizon-moving SE.

24 June 1963

00.51 AM-North of City-830 above horizon-moving SE. Sincerely,

ROBERT J. FRIEND Lt Col, USAF

May, 16, 1963.

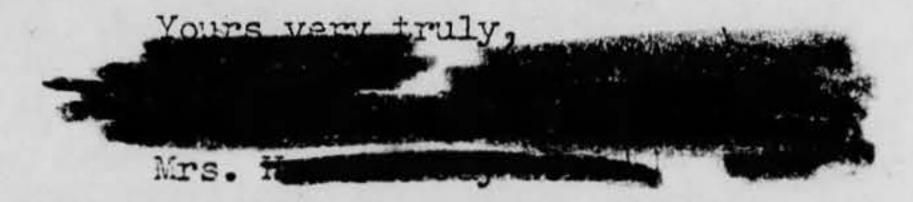

Director of Operations, Hbadquarters U. S. A. F., Pentagon, Washington, 25, D. C.

Dear Sir;

At the request of your representatives at the Charleston Air Force Base, relayed to me by Mr. of the Charleston Evening Post, I should like to report the sighting of an object, unidentifiable to Mr. and myself. We are interested in the heavens and have a reasonably good knowledge of the stars and planets; read Natural History magazine with its star reporter; and are well acquainted with Echo. Most evenings we spend some time aboard our boat, tied in on the east shore of Battery Creek just south of Beaufort, South Carolina, gazing at the heavens.

On the night of May, fifteenth, at very nearly nine, I observed an area of glowing light, elliptical in shape, one third above the western horizon in a west-south-west direction. That area of the sky appeared cloudless but we searched the horizon for a source of light supposing it to be a searchlight reflaction. No ground source was observable. We then used binoculars and saw several points of light within the area, as well as a cloudlike trail which varied from side to bottom. During a period of from twelve to fifteen minutes it remained in sight at the same height changing into the general appearance of a meteor before it faded, seeming to recede to the southwest. In our judgment it was in the atmosphere.

We would very much like to know what we saw. By its direction and the number of lights at first observed we ruled out Mr. in Faith Seven. We will appreciate your opinion.

Case No. 10 - Although it may have been an aircraft we feel this is a bad case of insufficient follow-up. We evaluate it, therefore, IF. The youth of the witness and the fact that there was only one witness makes some of us feel that this should not be ranked as a first-class unidentified, but rather as "indeterminate" or "insufficient corroboration."

U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.
